

ZMO-Colloquium Winter Term 2019/20

Thinking and Re-Thinking the World in the Decolonial Era: Thinkers and Theorizing from the Global South

Intellectual cultures, intellectual histories, and theoretical contributions of thinkers from marginalized regions of the world in the so-called 'Global South' are largely still underexplored and undervalued. Building on the conviction that the dominance of Eurocentrism needs to be reined in and overcome, both conceptually and institutionally, this lecture series seeks to work towards redressing such imbalance in scholarship and public consciousness.
