

Statement of Solidarity

Leibniz-Zentrum Moderner Orient (ZMO) expresses its solidarity with the people in Ukraine of all nationalities and origins, who have been under attack by the armed forces of Russia since 24 February 2022. This brutal invasion of a sovereign country is a disaster for the people in Ukraine and a catastrophe of global proportions. We condemn this attack. Keeping in line with its support for scholars at risk in the past, ZMO is committed to finding concrete ways to support scholars working in Ukraine. We emphasise that this solidarity must also include the many scholars and students from the Global South working in Ukraine. We also stand in support of those in Russia, Belarus, and elsewhere raising their voices against this war.
